

January 11,2000

To whom it may concern,

Please accept this letter as an eternal letter of reference to the folks at Environmentally Safe Products (ESP).

Some time ago, we built an extension to our tavern, which included a new 35' x 20' beer cooler to house our more than 400 bottle selections and 39 draft selections. We used only the best compressors, evaporators, and construction material for the job. We decided to wrap the entire walk-in with the insulation produced by ESP.

From the moment ESP walked in to quote the job, to the finishing touches they were extremely helpful, professional, punctual and affordable. We look forward to using them to assist us with our next location due to open in July 2000.

Sincerely,

A handwritten signature in black ink, appearing to read 'John E. Klinger', written in a cursive style.
